DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-20, prior arts of record do not disclose a distributed data monitoring and control system suitable for residential automation applications, comprising a combination of:

- (1) at least one wireless communication device communicatively coupled with the at least one sensor configured to receive the sensor data signal and format a first encoded data signal comprising a communication device identifier and a predetermined function code responsive to the received sensor data signal wherein the wireless communication device broadcasts the first encoded data signal.

Regarding claims 21-29, the prior arts of record do not disclose a method for monitoring residential systems, comprising a combination of:

- (1) providing at least one gateway device in communication with a wide area network wherein the gateway device is configured to receive an encoded broadcast signal having a first portion that identifies an originating wireless communication device and a second portion that contains a function code responsive to a sensed parameter.

Regarding claims 30-38, the prior arts of record do not disclose a method for monitoring and controlling residential systems, comprising a combination of:

- (1) providing at least one gateway device in communication with a wide area network wherein the gateway device is configured to receive a first encoded signal having a first portion that identifies an originating wireless communication device and a second portion that contains a

function code responsive to a sensed parameter and wherein the gateway device is configured to broadcast a second encoded signal that identifies at least one wireless communication device to traverse ending at a destination wireless communication device and wherein the second encoded signal contains a command;

- (2) deriving parameter information from the function code;
- (3) generating at least one command in response to the derived parameter information.

Conclusion

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
